

八百板季穂

岡山理科大学工学部建築学科・准教授

北海道大学にて博士号（観光学）を取得。専門は、町並み保存と観光まちづくり。文化遺産保全、観光開発、コミュニティ開発の3要素の相乗効果的な推進を可能とするまちづくりの仕組みを模索している。国内の町並み保存地区における研究の他、JICA事業などを通じてフィジー、エチオピア、ペルーで実践的研究に従事している。

Kiho Yaoita

Associate Professor, Department of Architecture, Okayama University of Science

Kiho Yaoita received her PhD in Tourism Studies from Hokkaido University. Her specialties are townscape conservation and community based tourism management. She is exploring a community development mechanism that enables synergistic promotion of the three elements of cultural heritage conservation, tourism development, and community development. In addition to conducting research in historic townscapes in Japan, she is also engaged in practical research in Fiji, Ethiopia, and Peru through JICA projects and other means.
